

1. Shipping Processing and Delivery Times

Orders are processed within 1 business day of purchase. Standard shipping takes 3-5 business days and is free on orders over \$50. Standard shipping on orders under \$50 has a flat rate of \$4.99. Express shipping takes 1-2 business days and costs \$14.99.

2. Shipping Tracking and Regions

A tracking link is emailed once the order ships. Shipping currently covers only the country of purchase; international shipping is not yet available.

3. Return Window and Process

The return window is 30 days from the delivery date for a full refund, provided the item is in original condition with all included accessories. The customer initiates the return request, receives a prepaid return shipping label by email, ships the item back, and the refund is processed within 5-7 business days of the returned item being received at the warehouse.

4. Refund Method

Refunds are issued to the original payment method used for purchase. Store credit is not the default but can be offered as an alternative if requested.

5. Warranty Coverage

The warranty period is 12 months from the date of purchase, covering manufacturing defects, battery failure, and hardware malfunction under normal use.

6. What the Warranty Does Not Cover

The warranty does not cover physical damage from drops, water damage beyond the IPX5 rating's intended protection such as submersion, loss or theft, and normal battery capacity degradation after the first year.

7. Out-of-Warranty Support

Customers outside the 12-month warranty window with a hardware issue may be offered a discounted replacement unit as a goodwill gesture, at the discretion of support staff.

8. Accepted Payment Methods

ShopNest accepts major credit and debit cards including Visa, Mastercard, and American Express, as well as PayPal, and Apple Pay or Google Pay for supported devices. Payment is charged at the time of order placement, not at shipping.

9. Cash on Delivery (COD) Policy

ShopNest Pulse orders are fulfilled with Cash on Delivery as the payment method. No payment is collected at the time of ordering — the customer pays the total amount directly to the courier upon delivery of the package.

10. Order Cancellation Policy

Orders can be cancelled free of charge as long as they are still in "processing" status. Once an order has moved to "shipped" or beyond, it can no longer be cancelled through the support assistant, and the customer would need to refuse delivery or initiate a return instead. Cancelling a processing order restores the reserved inventory and the customer is not charged.

11. Order Tracking

Customers can check the status of any order at any time by providing their order ID, which follows the format ORD-YYYYMMDD-HHMMSS. Order status will show as "processing," "shipped," "delivered," or "cancelled" depending on where the order currently stands.

12. Warranty Claim Process

Customers with a genuine hardware defect within the 12-month warranty period can file a claim by describing which earbud is affected, what the issue is, and how long they've owned the product. Once filed, a claim reference number is provided, and the customer's email is required so the support team can follow up regarding repair or replacement.

13. International Shipping

ShopNest currently ships only within the country of purchase. International shipping is not

available at this time, and orders cannot be placed with international shipping addresses.

14. Bulk Order Discounts

ShopNest does not currently offer automatic bulk order discounts through the support assistant. Customers interested in placing a large bulk order should contact the support team directly at support@shopnest.com to discuss pricing.

15. Gift Orders

The ShopNest Pulse can be ordered as a gift by providing the recipient's shipping address at checkout. The order confirmation and any communication will go to the email address provided at the time of booking, so customers ordering as a gift should use their own email address to receive order updates, and provide the recipient's address as the shipping destination.
